July 17-18, 2019

# Are you ready!?

---

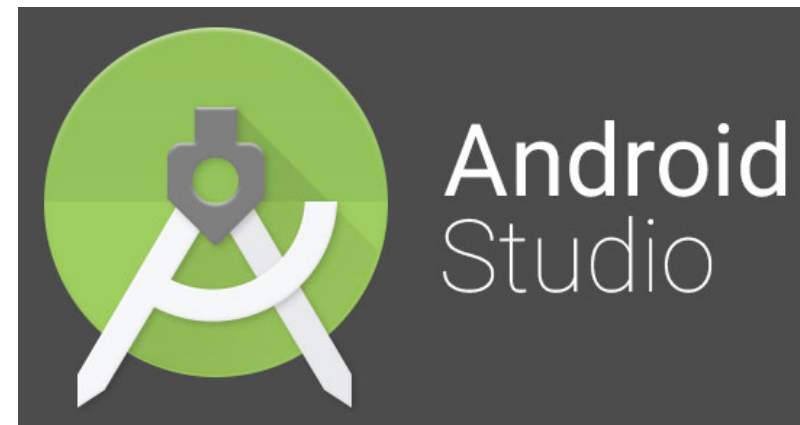

# Before capturing Pokemon, what you need to do:

---

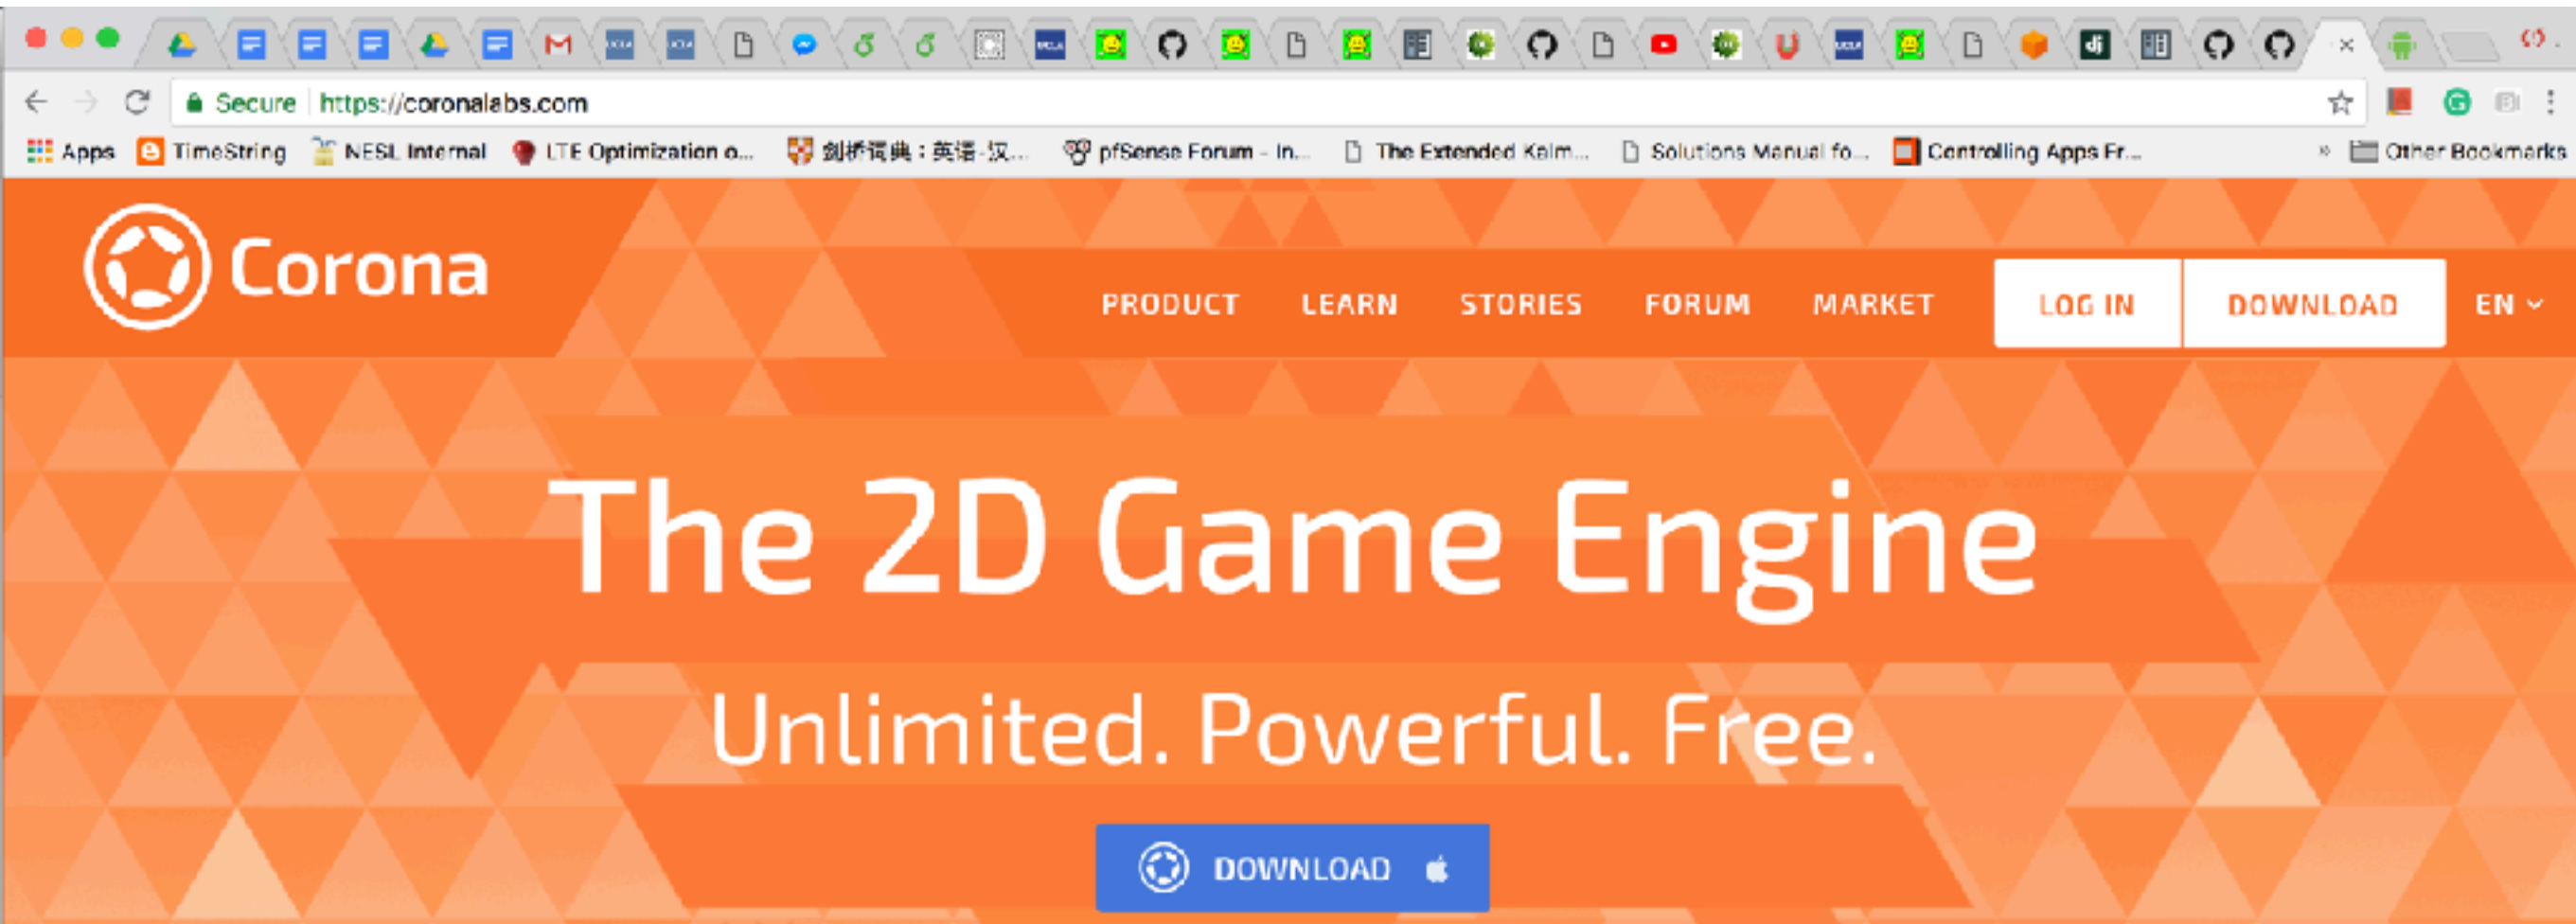

1. Download this

2. Download this

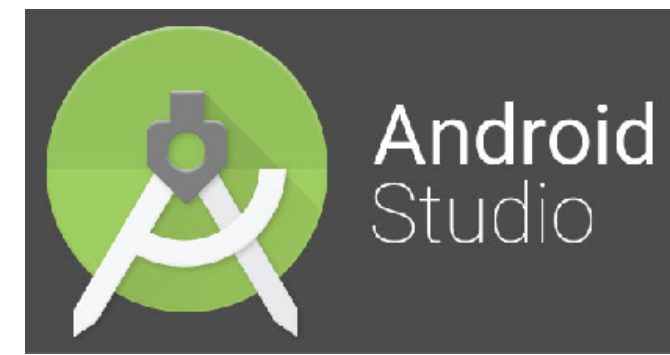

# 1. Corona SDK

- 1. Go to <https://coronalabs.com/> , you will see

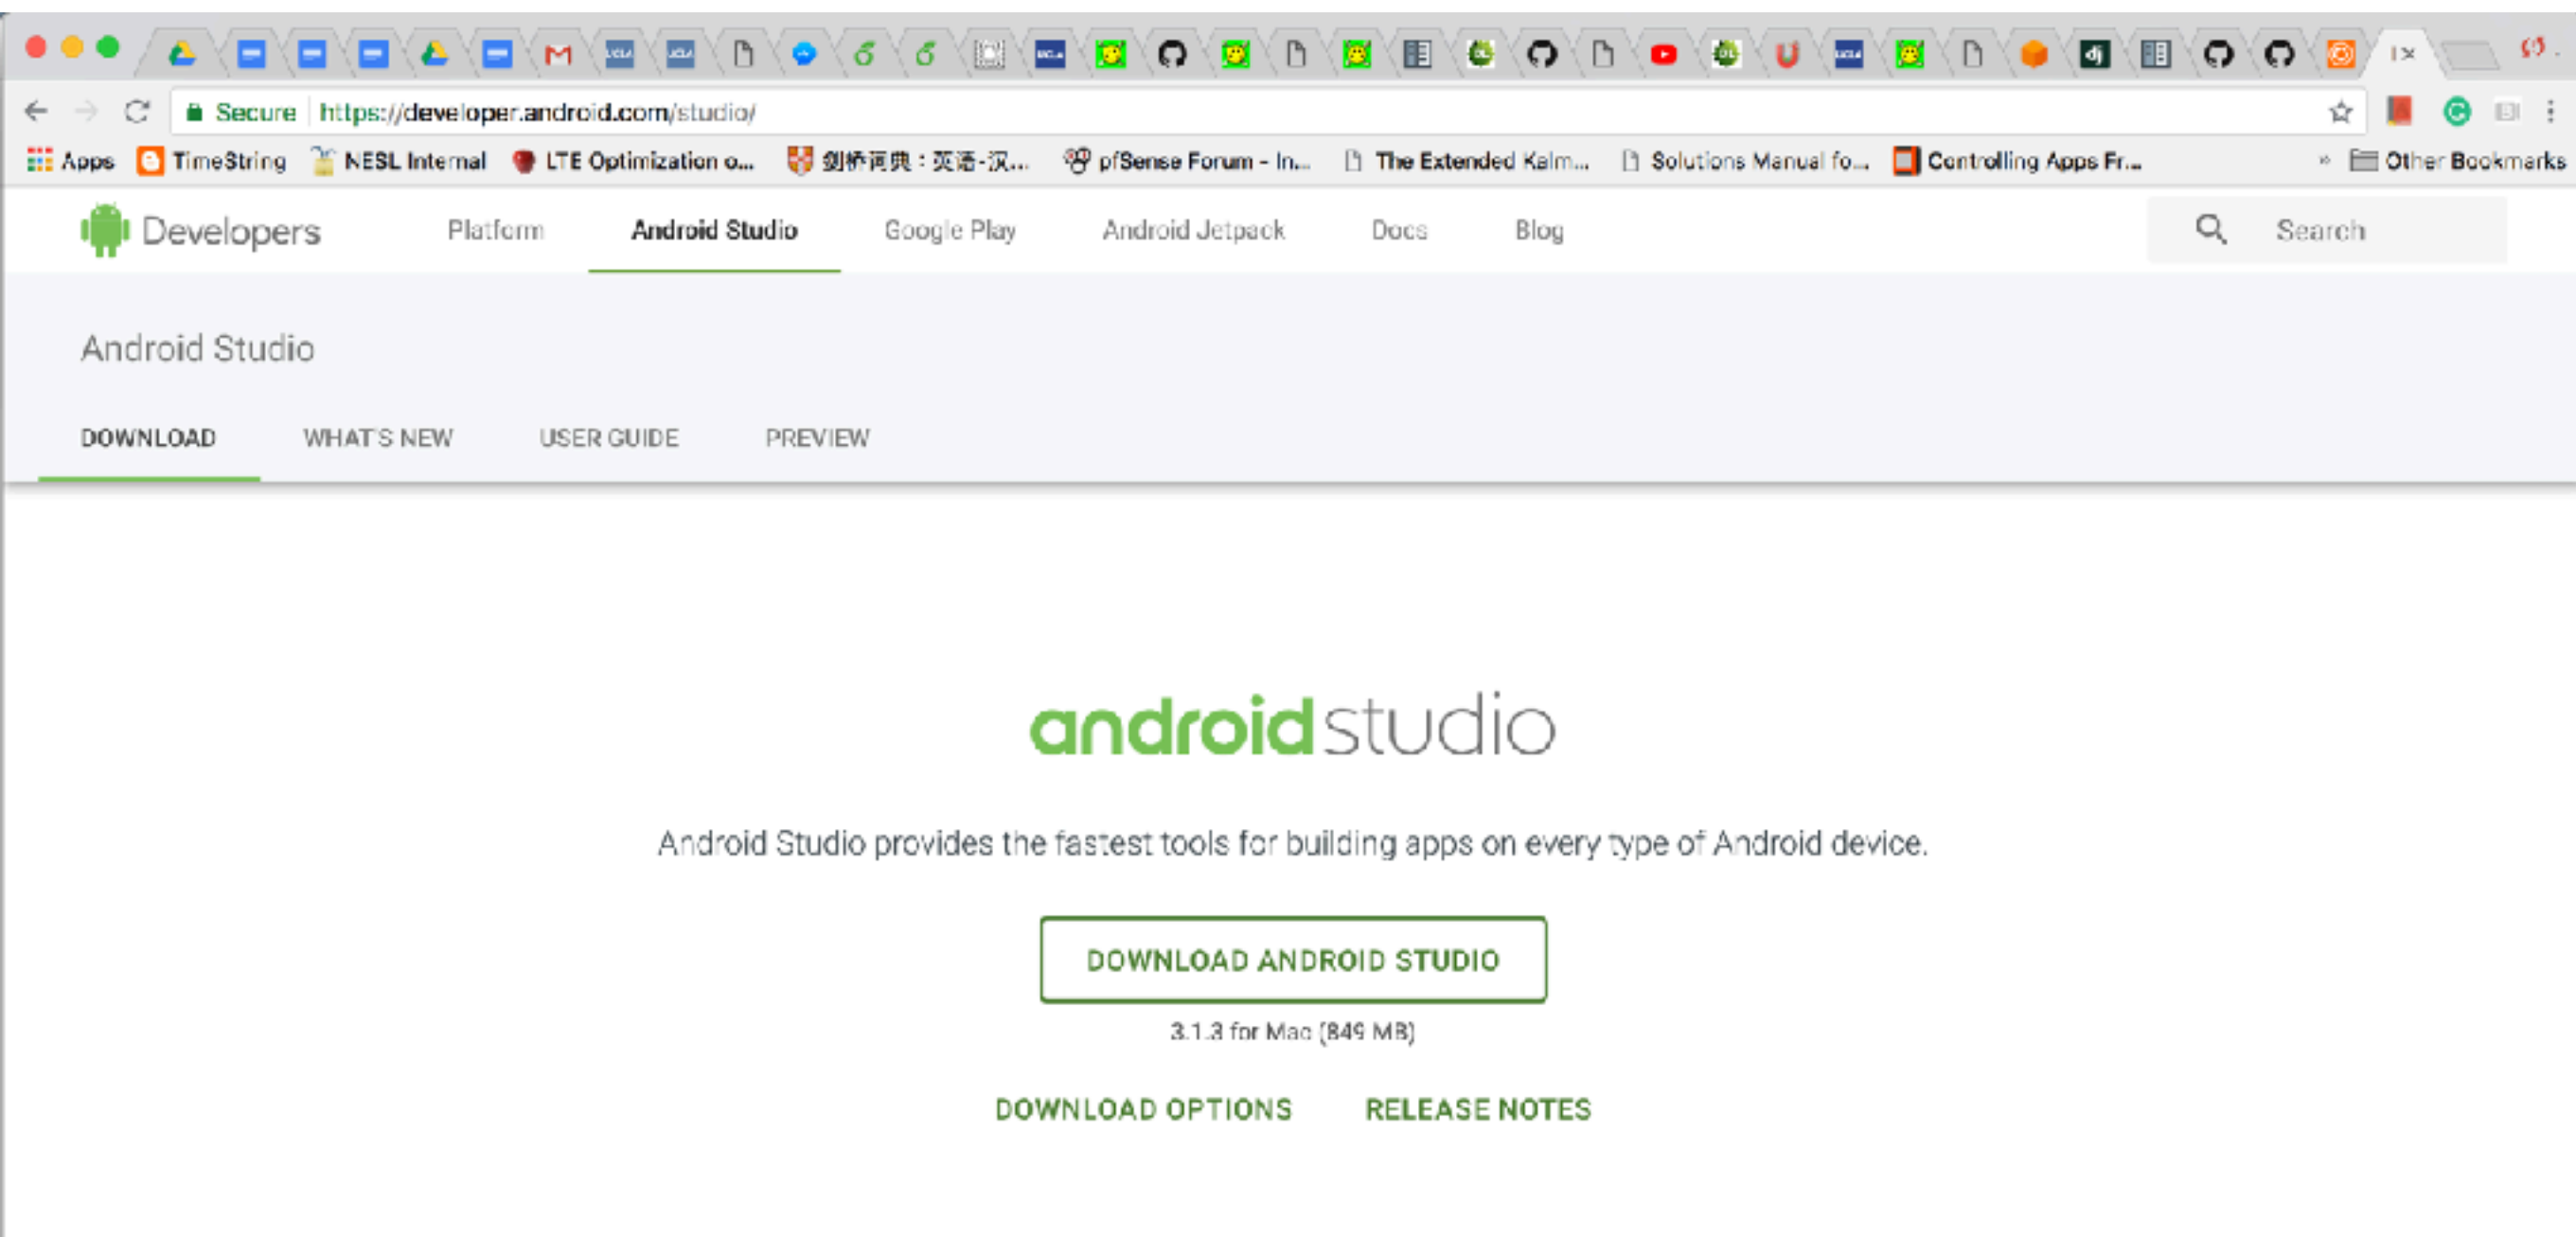

- 2. See the download? Click it!
- 3. It seems before you download, you have to register an account
- 4. Of course, install it!

## 2. Android Studio

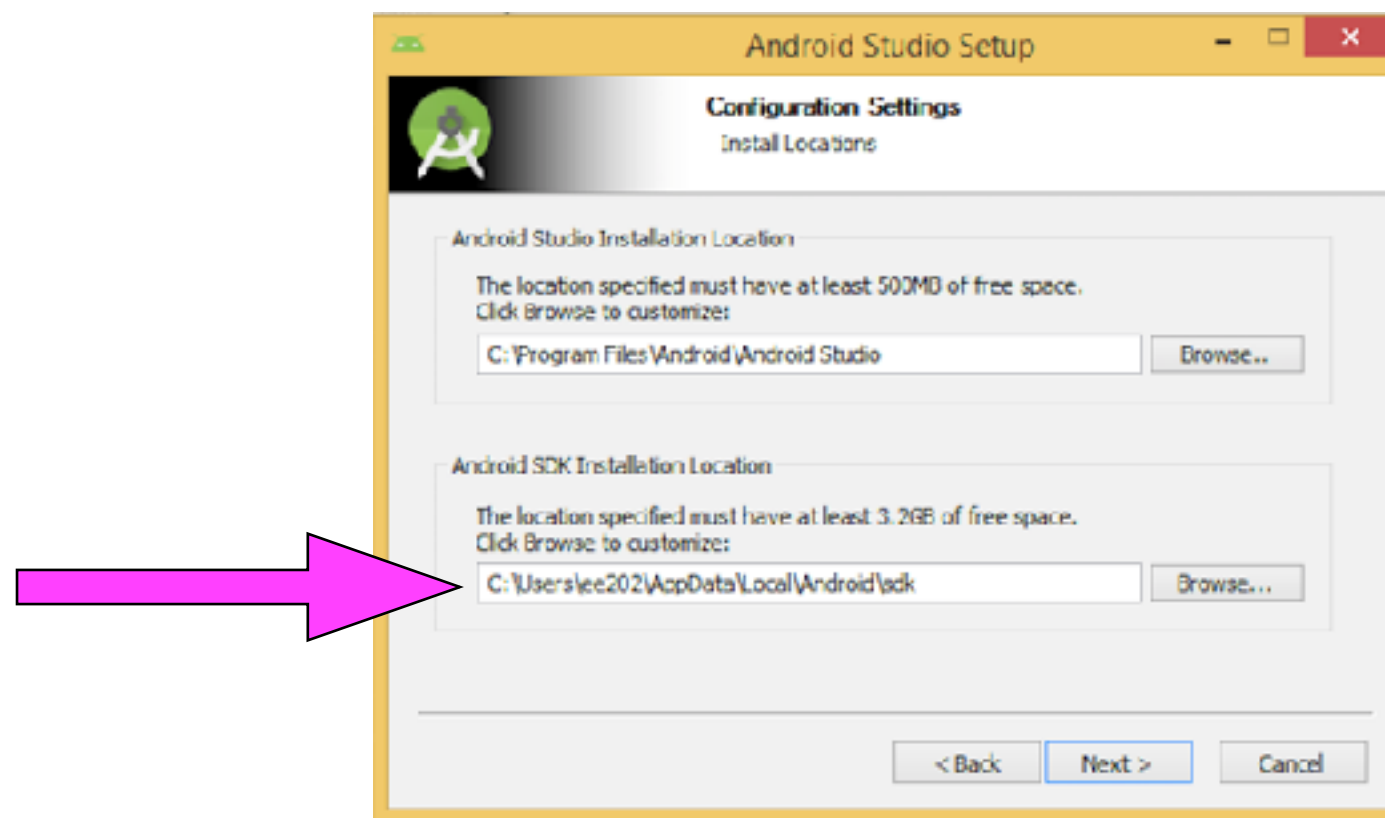

- 1. Go to <https://developer.android.com/studio/>, and you'll see the page below
- 2. And you know what to do: Install it!

## 2. Android Studio

- 1. Go to <https://developer.android.com/studio/>, and you'll see the page below
- 2. And you know what to do: Install it!
  - 2.1 But hold on, copy the following path to somewhere else when you see the following window!

### 3. Toward Pokemon Master - Sublime

---

- Download this! You'll never regret

Sublime Text 3
